

ADVANCE HEALTH CARE DIRECTIVE

"We never talked about it"

The patient is in a coma, the doctor at the hospital is asking, "What kind of care would your Dad have wanted if he could speak? Too often, the answer is "I wish I knew. We never talked about it."

Now is the time to complete your Advance Health Care Directive so that your family will know what kind of care you want if you are unable to speak because of illness or accident.

Attend Community First's workshop by Zoom or In-person or Request a recording of our presentation. It's free!
